

K-Love is a great contribution to our local community as it shares the word of God with many nonbelievers daily who hear the great music and witnessing played on the station. If K-Love were taken off the air here it would take away from the choices we have as families as to what we can listen to on the radio as a family and a good influence to the community. K-Love is in the public's best interest as a radio station that is motivational, provides hope and healing to a hurting world.
